**INNOVATIVE  
SOLUTIONS  
REDEFINED**

**MLION CORPORATION is a Foundation Solutions company focusing on Ports and Waterfront development, Civil Excavations and Power Generation projects in the Asian Region.**

Waterfront and Underground developments are the lifeblood that drives many economies around the world. Goods, commodities and people utilise these developments for mobility, storage and living spaces. At Mlion Corporation, we help provide these solutions.

We do so with products such as Steel Sheet Piles, Steel Pipes, Tie Rods, Long and Flat Steel Products, Crane Rails and its Accessories, Fender and Bollards, Bitumen and Heavy Machinery.

For those who truly understands, builds and manage projects such as train networks, ports, waterfronts and powerplants, they will know how complex each project can be. Cost overruns, unpredictability, custom clearances, timeline, quality control can easily affect the project. To mitigate such risks, an experienced team is required to look into every aspect of the supply chain. From the engineering and design, to the supply, cost, quality, logistics and storage.

At Mlion Corporation, we listen, understand and use all our experiences to create an honest, and transparent solution that will be customised to meet your project. We incorporate the latest technology and innovation to provide you with the best solution at the most cost-effective price. We are also constantly innovating and redefining how we can better improve our product line-up and service offerings.

Our team is no stranger to adversity, and it is our team that will stand by your side when the problem occurs, or issues arise. A good solution is not measured on its price alone, but it's the extent that we have gone to ensure we overcome all possible challenges to give the customer a peace of mind.

Reputation is earned and built on one successful delivery at a time and since 2011, we have grown to become a forefront market leader in this sector. We have continuously invested in our people and infrastructure to cover the entire region and continue to provide the solutions that enable economies to grow and prosper.

**We Source, Value Add, Store and Deliver Innovative Solutions that enable economies to grow and prosper.**

**WHAT WE DO**

# REDEFINED

**Providing Innovative Solutions:** Being the link in the global supply chain, we provide customers with access to the global trade. We provide the vital link between producers of materials to the end users who consume it. We do so by adding value, by customizing and value engineering, with exceptional performance and customer service.

**Investment:** We continually invest in our people, our downstream network and channelization to become the forefront market leading physical merchant. Our shipping and chartering team provides us with access to vast network of trade routes previously not possible. We consistently move challenging and out of gauge products to remote locations around the world.

As a company we believe that we provide customers with a solution and not a product or commodity. In an increasingly competitive market, our ability to respond and shift with varying patterns of demand provides the key differentiation in our market offering.

Another key aspect of our downstream offering is our ability to manage risk for the customer. We can provide fixed rate contracts, floating rate contracts, future pricing and financial hedging to the materials which we supply.

**Accreditation:** MLION CORPORATION is an ISO 9001:2015 and Bizsafe Level 3 accredited company. Quality assurance is an integral part of our core values. Our inspectors are constantly in the factories to ensure that quality is upheld and safety is adhered to. For projects that we are actively involved, our staff are on site to assist should a need arise.

**Recognition:** In 2019 we were accorded the prestigious Enterprise 50 award, ranking 33rd position. We continued to be featured in the annual SME 1000 award, Financial Times Asia Pacific High Growth Companies and Straits Times - Statista's Singapore's Fastest Growing Companies.

**INNOVATIVE SOLUTIONS**

## COMPANY PROFILE

# OUR TRADING ACTIVITY

<b>SOURCE</b> from the mills	<b>LISTEN</b> to our customers' requirements	<b>CUSTOMIZE</b> by value engineering	<b>STORE</b> products in warehouse locations	<b>DELIVERY</b> to your final site location
WORKING EXCLUSIVELY WITH FACTORIES	REQUIREMENTS AND NEEDS	PROVIDING VALUE FOR THE CLIENT.	WAREHOUSING	ACCESS TO REMOTE LOCATIONS
We work closely with our factories to provide the latest technologies and requirements to the customer.	Being local in our markets, we are able to listen and partner with Owners, Consultants, Contractors and all Stakeholders to understand the requirements.	By working closely with the Client and Consultants, we are able to better optimize designs and provide customization to the products.	We have warehouses locally in the regions which we operate. A key to providing consistent downstream access to the products.	Our shipping and chartering team provides a vast network of trade routes to bring products across the globe to your final site location.
Being exclusive distributors in the regions which we operate gives us longer term stability and cooperation with all stakeholders.	We can cater to a tight deadline and a difficult to reach site location.	We provide a wide range of engineering solutions and customization to allow for value engineering.	Warehousing can be for stock purposes, transit goods or simply for project requirements.	We have moved products across Air, Land and Sea where it is most cost effective and time sensitive to the client.
We provide proven market access to channels, global supply chains, and superior marketing development.	With flexible and customized delivery, tailored made logistics, we are able to meet the requirement of your projects.	Feasibility Studies, Design Work, Analysis, Customized Steel Grades, Lengths, Shapes, Sizes are just some of the various ways we can add value to your project.	We operate our own logistics yards, or at time with 3PL providers to be flexible and scalable.	Having access to special vessels allows us to move products such as pipes up to 100m long or requiring heavy lift capability.

# CORE PRODUCTS

## HOT ROLLED STEEL SHEET PILES

- Z Shape
- U Shape
- Hat Type Sheet Piles

## COLD FORMED STEEL SHEET PILES

- Z Shape
- U Shape
- Omega Shape

## STEEL PIPES

- Spirally Welded
- Longitudinally Welded (JCOE / UOE)
- Three Rolled Bend (TRB)
- Seamless Pipes

## INTERLOCKING STEEL PIPES

- O-Pile Interlocking
- P-P. C-T. L-T Interlocks
- Internal Clutch Plate - T Interlocks (Pipe Roof Application)
- Down The Hole Drilling Method Interlocks

## SPECIALIZED INTERLOCKS

- O-Pile Interlocks
- Steel Pipe - Sheet Pile Interlocks (C9 / CP2)
- Corner Pile Interlocks (CP1)

## UPSET END TIE RODS

- D2 and Type II Tie Rods

## CRANE RAILS & ACCESSORIES

- Gantrex Rails Clips, Pads, Bolts, Plates and Grout
- Crane Rails
- Installation

## LONG & FLAT STEEL PRODUCTS

- Beams, Angle, Channels, HRC, Plates

## DECK FURNITURE

- Fenders
- Bollards

## HEAVY MACHINERY

- Vibratory Hammers
- Mobile TRB Pipe Mill
